

The Board is fully committed to Equality, Diversity & Inclusion which has to be the golden thread that runs through the membership of the National Association for Healthcare Security.

As an association, we do not condone violence of any sort unless there is an absolute and clear legal justification and necessity and underpins the 'right to life'. We haven't wanted to be misinterpreted, so we have been listening...

We support the human rights of everyone, regardless of race, colour, religion or any of the other differences that make the human race so diverse and strong. Everyone has a fundamental right to life and freedom from oppression; this is undeniable.

We are fully committed to tackling racism, discrimination and inequality and we stand in solidarity with our patients, colleagues, students and communities.

# REPORT MODERN SLAVERY

Statement issued by the NAHS Executive Board 12<sup>th</sup> June 2020
