

## NHS Protect

### Tables showing the number of reported physical assaults on NHS staff in 2011/12

#### National Summary by Sector Type

##### Sources

- (1) NHS Protect Physical Assault Statistics 2011/12
- (2) Physical assaults at (1) that involved medical factors (see notes below)
- (3) Physical assaults at (1) that did not involve medical factors
- (4) NHS Workforce figures 2011 (Medical + Non-Medical) (Published by the NHS Information Centre)
- (5) Assaults per 1,000 staff (calculation based on (4))
- (6) Health body declaration of total staff (as at 31st March 2012)
- (7) Assaults per 1,000 staff (calculation based on (6))
- (8) Health body declaration of total criminal sanctions applied during the period 1st April 2011 to 31st March 2012

##### Notes

Physical assault statistics (1) are validated by NHS Protect. All other data sets are the responsibility of the NHS Information Centre (4) or the individual health bodies (6) and (8). NHS Workforce figures were published by the NHS Information Centre and relate to September 2011. The health body figures were provided as at 31st March 2012. Both have been listed as there is some variance. Source (2) are the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. These figures have been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at (1).

**IMPORTANT** - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

Many health bodies have undergone reconfiguration during 2011/12. This has predominantly affected the PCT sector, but in some instances health bodies in the mental health and acute sectors have also been affected. Wherever possible the figures for these health bodies have been published under their legal entity as at 1st April 2011. In some cases figures for these health bodies may appear skewed due to the timing and the way in which they have reconfigured.

A list of organisations that have undergone **midyear** restructure, the date this occurred and an explanation of how this change has been handled in the data shown, can be found at the end of this page\*

## NHS Protect

### Tables showing the number of reported physical assaults on NHS staff in 2011/12, broken down by health body

#### Acute Sector

##### Sources

- (1) NHS Protect Physical Assault Statistics 2011/12
- (2) Physical assaults at (1) that involved medical factors (see notes below)
- (3) Physical assaults at (1) that did not involve medical factors
- (4) NHS Workforce figures 2011 (Medical + Non-Medical) (Published by the NHS Information Centre)
- (5) Assaults per 1,000 staff (calculation based on (4))
- (6) Health body declaration of total staff (as at 31st March 2012)
- (7) Assaults per 1,000 staff (calculation based on (6))
- (8) Health body declaration of total criminal sanctions applied during the period 1st April 2011 to 31st March 2012

##### Notes

Physical assault statistics (1) are validated by NHS Protect. All other data sets are the responsibility of the NHS Information Centre (4) or the individual health bodies (6) and (8). NHS Workforce figures were published by the NHS Information Centre and relate to September 2011. The health body figures were provided as at 31st March 2012. Both have been listed as there is some variance.

Source (2) are the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. These figures have been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at (1).

**IMPORTANT** - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

Many health bodies have undergone reconfiguration during 2011/12. This has predominantly affected the PCT sector, but in some instances health bodies in the mental health and acute sectors have also been affected. Wherever possible the figures for these health bodies have been published under their legal entity as at 1st April 2011. In some cases figures for these health bodies may appear skewed due to the timing and the way in which they have reconfigured.

A list of organisations that have undergone **midyear** restructure, the date this occurred and an explanation of how this change has been handled in the data shown, can be found at the end of the first page of this document\*

## NHS Protect

### Tables showing the number of reported physical assaults on NHS staff in 2011/12, broken down by health body

#### Ambulance Sector

##### Sources

- (1) NHS Protect Physical Assault Statistics 2011/12
- (2) Physical assaults at (1) that involved medical factors (see notes below)
- (3) Physical assaults at (1) that did not involve medical factors
- (4) NHS Workforce figures 2011 (Medical + Non-Medical) (Published by the NHS Information Centre)
- (5) Assaults per 1,000 staff (calculation based on (4))
- (6) Health body declaration of total staff (as at 31st March 2012)
- (7) Assaults per 1,000 staff (calculation based on (6))
- (8) Health body declaration of total criminal sanctions applied during the period 1st April 2011 to 31st March 2012

##### Notes

Physical assault statistics (1) are validated by NHS Protect. All other data sets are the responsibility of the NHS Information Centre (4) or the individual health bodies (6) and (8). NHS Workforce figures were published by the NHS Information Centre and relate to September 2011. The health body figures were provided as at 31st March 2012. Both have been listed as there is some variance.

Source (2) are the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. These figures have been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at (1).

**IMPORTANT** - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

##### Notes

Physical assault statistics (1) are validated by NHS Protect. All other data sets are the responsibility of the NHS Information Centre (4) or the individual health bodies (6) and (8). NHS Workforce figures were published by the NHS Information Centre and relate to September 2011. The health body figures were provided as at 31st March 2012. Both have been listed as there is some variance.

Source (2) are the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. These figures have been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at (1).

**IMPORTANT** - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

Health bodies have been categorised under the Mental Health sector where mental health and/or learning disability services constitute a significant proportion of their overall service provision.

Many health bodies have undergone reconfiguration during 2011/12. This has predominantly affected the PCT sector, but in some instances health bodies in the mental health and acute sectors have also been affected. Wherever possible the figures for these health bodies have been published under their legal entity as at 1st April 2011. In some cases figures for these health bodies may appear skewed due to the timing and the way in which they have reconfigured.

A list of organisations that have undergone **midyear** restructure, the date this occurred and an explanation of how this change has been handled in the data shown, can be found at the end of the first page of this document\*

## NHS Protect

### Tables showing the number of reported physical assaults on NHS staff in 2011/12, broken down by health body

#### PCT Sector

##### Sources

- (1) NHS Protect Physical Assault Statistics 2011/12
- (2) Physical assaults at (1) that involved medical factors (see notes below)
- (3) Physical assaults at (1) that did not involve medical factors
- (4) NHS Workforce figures 2011 (Medical + Non-Medical) (Published by the NHS Information Centre)
- (5) Assaults per 1,000 staff (calculation based on (4))
- (6) Health body declaration of total staff (as at 31st March 2012)
- (7) Assaults per 1,000 staff (calculation based on (6))
- (8) Health body declaration of total criminal sanctions applied during the period 1st April 2011 to 31st March 2012

##### Notes

Physical assault statistics (1) are validated by NHS Protect. All other data sets are the responsibility of the NHS Information Centre (4) or the individual health bodies (6) and (8). NHS Workforce figures were published by the NHS Information Centre and relate to September 2011. The health body figures were provided as at 31st March 2012. Both have been listed as there is some variance.

Source (2) are the number of physical assaults where the perpetrator did not know what they were doing, or did not know what they were doing was wrong due to medical illness, mental ill health, severe learning disability or treatment administered. These figures have been calculated by applying the percentage of total declared assaults identified as involving medical factors, to the validated total assault figure at (1).

**IMPORTANT** - care should be taken when comparing assault figures as there are many factors which may influence a health body's published figures including: a) population served b) geographical setting (i.e. rural/urban), c) level of provision of mental health, learning disability and elderly care services, d) changes in service provision, e) health body amalgamations and splits f) embedding of reporting culture.

In some instances, provision of community hospitals, elderly care or learning disability services in the PCT sector may contribute towards high assault figures.

Many health bodies have undergone reconfiguration during 2011/12. This has predominantly affected the PCT sector, but in some instances health bodies in the mental health and acute sectors have also been affected. Wherever possible the figures for these health bodies have been published under their legal entity as at 1st April 2011. In some cases figures for these health bodies may appear skewed due to the timing and the way in which they have reconfigured.

A list of organisations that have undergone **midyear** restructure, the date this occurred and an explanation of how this change has been handled in the data shown, can be found at the end of the first page of this document\*
